Treating Complex PTSD and Co-occurring Disorders: Bolstering Patient and Therapist Resiliency

This is your opportunity to learn the latest developments in the treatment of PTSD, Complex PTSD and co-morbid disorders from one of the world's leading psychotherapists. Dr. Meichenbaum is a cofounder of Cognitive Behavior Therapy and was voted "one of the 10 most influential psychotherapists of the 20th century."

Attend this seminar and learn the assessment and treatment implications of research findings on neuroscience and resilience. Learn how to use a Case Conceptualization Model that informs treatment decision-making and ways to implement the Core Tasks of Psychotherapy that "expert" therapists employ. You will learn how to provide integrated evidence-based therapy with clients who experience a variety of comorbid disorders including PTSD and Prolonged and Complicated Grief Disorders, suicidal behavior, Substance Abuse Disorder, and Borderline Personality Disorder. You will also learn how to integrate spiritually-based interventions and psychotherapy.

Dr. Meichenbaum will use his vast clinical and research experience, humorous, engaging, presentation style, along with video case presentations and provide a detailed and practical set of handouts with tools and techniques to be used in your practice.

Learning Objectives

At the end of this presentation, participants at the workshop will be able to:

1. discuss the concept of PTSD and critically evaluate the "state-of-art" of treatment with traumatized and victimized individuals, families, and communities;
2. utilize a Case Conceptualization Model of risk and protective factors that informs assessment and treatment decision-making;
3. apply evidence-based integrated trauma-focused interventions with patients who present with a variety of co-morbid disorders (Borderline Personality Disorder, suicidal behavior, substance use disorders, complicated grief disorders);
4. address a wide range of post trauma emotional reactions (shame, disgust, anger, and moral injuries);
5. implement the core tasks of psychotherapy and describe what EXPERT therapists do;
6. describe how to bolster the client's resilience in six domains (physical, interpersonal, emotional, cognitive, behavioral and spiritual);
7. utilize a narrative treatment perspective to help clients develop "healing stories" and accompanying coping strategies;
8. describe what resilient individuals DO and do NOT do; and
9. list contents of the Clinical Tool Box to be used in your practice.

Workshop Schedule

8:00 – 8:30	Registration (coffee, tea, juices, fruit, pastries)	12:00 - 1:30	Lunch and NPA Business Meeting (Lunch included with registration)
8:30 – 10:15	Morning Session	1:30 – 3:00	Afternoon Session
10:15 – 10:30	Break	3:00 – 3:15	Break
10:30 – 12:00	Continue Morning Session	3:15 – 4:30	Continue Afternoon Session

Treating Complex PTSD and Co-occurring Disorders: Bolstering Patient and Therapist Resiliency

Don Meichenbaum, Ph.D., is Distinguished Professor Emeritus, University of Waterloo, Ontario, Canada from which he took early retirement 20 years ago to become Research Director of the Melissa Institute for Violence Prevention and Treatment of Victims of Violence in Miami. (Please see www.melissainstitute.org that has had over 2 million hits worldwide.) He is one of the founders of Cognitive Behavior Therapy. In a survey of clinicians reported in the *American Psychologist* he was voted “one of the 10 most influential psychotherapists of the 20th century.” He received a Lifetime Achievement Award from the clinical division of the American Psychological Association and was an Honorary President of the Canadian Psychological Association.

He has presented in all 50 U.S. states and internationally. He has published extensively and most recently published *Roadmap to Resilience: A Guide for Military Trauma Victims and Their Families*. His other books include *Treatment of Individuals with Anger Control Problems and Aggressive Behavior*; *Stress Inoculation Training*; *Facilitating Treatment Adherence*; and *The Unconscious Reconsidered*. Dr. Meichenbaum’s latest book is entitled *The evolution of cognitive behavior therapy: A personal and professional journey with Don Meichenbaum*, (Routledge Publisher).

He has consulted for various populations including veterans’ hospitals, the National Guard, psychiatric treatment centers for children, adolescents and adults, treatment centers for individuals with traumatic brain injuries, torture victims, Native populations, deaf populations and school boards.
